

# Waste Diversion Plan & Deconstruction and Salvage Assessment

**Project Number** \_\_\_\_\_

**Owner/Contact Name** \_\_\_\_\_

**Phone** \_\_\_\_\_

A **waste diversion plan** is required at application intake for all construction and demolition projects with an area of work greater than 750 square feet. If the project involves demolition, complete the **deconstruction and salvage assessment** on page 2. The waste diversion plan must be submitted at application intake or e-mailed to [DPD\\_Plans\\_Routing@seattle.gov](mailto:DPD_Plans_Routing@seattle.gov).

**Use the drop-down lists to fill in the columns below**

- Next to each potential waste material, indicate if the diversion method will likely be “Reuse”, “Salvage Off Site”, “Recycle Source Separated”, “Recycle Comingled”, or “Landfill”. Bold cells indicate frequently salvageable/reusable materials.
- If a specific material is diverted in 2 different ways (for example, you might salvage some wood for reuse and then recycle the rest), use the “Wood” category to fill in one way the material was diverted and use the “Other” cell to identify wood and fill in the second way the wood was diverted.
- You may use your own form as long as it identifies material, diversion method, hauler and receiving location.
- Attach additional pages as needed.

Material	Diversion Method	Hauler	Receiving Facility
<b>Individual Materials</b>			
Asphalt Paving *			
Asphalt Shingles			
Brick (whole)*			
Carpet/padding			
Concrete *			
Cardboard *			
Glass			
Gypsum/Drywall *			
Land Clearing			
Metals *			
Plastics			
Plastic Film Wrap			
Rock/Gravel			
Soil/Sand			
Wood			
Other:			
Other:			
Hazardous Waste			
Recyclable Comingled Material			
List materials to be recycled:			
Mixed Non-recyclable Debris			

*\* These materials should not be disposed in construction site disposal containers and at transfer station disposal areas. For gypsum scrap this landfill disposal ban applies to new gypsum scrap only*

*I will submit the Waste Diversion Report as required by SPU*

Keep a copy of this Waste Diversion **Plan** to help complete the Waste Diversion **Report** which should be submitted directly to SPU within 60 days of final inspection approval from DPD. A copy of the Waste Diversion Report & directions for how to submit it to SPU are found here:
